

## **Activity Sheet**

**Title:** Taking care of the environment

**Category:** Practical life activity

### **ORGANISATION OF THE EXERCISE**

**Duration:** 15 minutes

**Arrangement:** The children seat in a U-shape

**Age:** 4 to 5 years old

**Materials:** /

**Objective(s):** Understanding concepts about caring for one's environment

### **CONDUCT OF THE EXERCISE**

**Motivation(s) for the exercise :** Yesterday during recess, Ali ate a banana and threw the peel on the ground. Alima, who was playing nearby, slipped while running on the banana peel. She fell and injured her arm. Tantie took care of her, but she is in a lot of pain.

**Exercise :** The educator asks the children some small questions to help them understand about caring for the environment:

- Is what Ali did good?
- Why is it not good to throw a banana peel on the ground?
- What should Ali have done when he finished eating his banana?
- Where is the trash can located in our school?
- What should we put in the trash can?

**Resolution:** From today onwards, I will always throw garbage in the trash bin!

**Control of acquisition:** Through small questions, the educator assesses the children's understanding and knowledge acquisition.
